• Backup Clock - Calendar - Timer Event: *1mn*
• Packaging - W x D x H in mm: *435 x 429 x 451*
• Equipement Supplied: *Batteries for RC*

Product Highlights

• Digital Studio Picture Control
Digital Studio Picture Control keeps checking the quality of your videotapes and reproduces the best possible picture performance.
Philips' Digital Studio Picture Control optimises the playback quality. It measures the characteristics of the tape, adapts the resolution and reduces the picture noise.

• Plug & Play
Let the Combi guide you through the installation steps without the need of the user manual. Installing a Combi has never been easier!

• SMART Clock
The Teletext contains an extremely precise time information. Your TV-VCR Combi knows that and during the installation, it automatically reads out this precious information. You can then use your Combi as the clock reference in your home, as the time is readjusted every day. You even don't have to worry about changing from summer to wintertime!

• One Touch Record (OTR)
Start a recording with the touch of a single button. Each further touch of the record button adds 30 minutes of recording time. The actual end time will be automatically calculated by the set and displayed.
